NOTICE
NO. 13-52

10 July 52

SUBJECT: New Services of the [redacted] TAB, to support the Courses of Instruction

25X1A

1. PURPOSE

a. This memorandum outlines two additional services of the Library section:

(1) A Guide to Current Articles Pertinent to the Training Program

(2) A Bibliographic Service

b. The purpose of these services is to aid all instructors by expediting the selection of reading material through screening, and by assisting in the preparation of bibliographies.

c. The need for a GUIDE and a Bibliographical Service arises from the volume of material received at the Training Library. Approximately 600 issues are received each month. Of this total, more than 100 are reports issued by government agencies and 120 are trade periodicals. At the C. I. A. Library there are additional periodicals and a very large number of classified documents, which contain articles of varying importance to the courses of instruction. Each instructor would spend an excessive amount of time if he were to search these publications to select articles of training interest.

2. NEW SERVICES

a. The following new services are proposed to provide a partial solution to the above problems:

(1) A summary of the more important articles in a publication titled: A GUIDE TO CURRENT ARTICLES PERTINENT TO THE TRAINING PROGRAM.

S-E-C-R-E-T

SECRET

a. The functions of the GUIDE will be to screen publications and to select articles within the limits of the program of instruction outline. Brief, descriptive summaries of these articles will be presented in a mimeographed GUIDE, which will be distributed every two weeks to those persons concerned. No attempt will be made to digest or evaluate the original article. The purpose of description will be to draw the instructor's attention to the original article which may be obtained from the Library in Room 155, Building [redacted]

25X1A

b. An outline of suggested subject headings to be used in selecting material for the GUIDE is shown by Attachment "A". Instructors are requested to revise this list to more clearly emphasize their own needs; to develop individual guide-outlines and forward them to the Librarian, Room 155, Building [redacted] or consult with the Librarian or Reference Librarian. It will be helpful if modifications to Attachment "A" are forwarded to the Librarian by 18 July 1952.

25X1A

c. It is anticipated that the first issue of the GUIDE will be distributed 1 August 1952.

2. Bibliographic Service.

a. This service furthers the effort to aid the instructors in selecting material efficiently by compiling lists of reading materials on specific subjects. Two types of bibliographies will be compiled: (1) general bibliographies which are comprehensive, unvaluated reading lists on limited subjects; (2) special bibliographies which are critical, annotated, discriminating working lists. These services will be provided only upon the advice, and at the request, of the instructor.

b. Attachment "B" provides an example of the method which will be used to enable the instructors to make specific recommendations for bibliographic service. If bibliographies are requested, please consult the Librarian or the Reference Librarian, extension 3036 or 3038, or send the completed form to Room 155, Building [redacted]

3. Are the persons to use the reading material college graduates, undergraduates, or persons with previous study and experience in their subjects? _____

5. What is the highest classification of the references which can be used? Are there any other security factors to be considered, such as books with no identifying marks, or with "US Officials Only," etc. _____
6. a) Is it sufficient to list only the author, title, date, publisher and pages of the reference? _____
b) Is it necessary to abstract, describe or give a critical evaluation of the reference? _____
7. Is it preferable to list references in a desired working order, i.e., alphabetical, chronological, or by subject? _____

SUBJECT: Memoranda for the Record.

1. The Weekly Activity Reports which are submitted by Staff and Division Chiefs to provide this office with a brief, succinct record of the activities carried out within TR(S) do not, however, completely meet the requirement for establishing an historical file which should include a record of staff planning, research, and discussion relating to the development of TR(S) activities. One copy to be forwarded to the office of DD/TR(S) for inclusion in an historical file.

OFFICE OF TRAINING

NOTICE
NO. 13-53

20 April 1953

SUBJECT: Career Designations

1. At its March meeting, the CIA Career Service Board considered the problem of specifically identifying each career employee with that component of the Agency responsible for his career planning.

2. The CIA Board concluded that career planning should be developed in relation to major areas of operational and support responsibility within the Agency and has identified twenty-one components which offer career opportunity for professional specialization. These components, together with corresponding Career Designation code, are set forth on the attached list.

3. Effective not later than 1 May 1953, the Assistant Director for Personnel will assign a career designation to each new career employee as he enters on duty. In addition, the AD/P will officially record the Career Designations of all career employees on duty as of a date to be determined, and has been made responsible to insure that each career employee is informed of his current Career Designation.

4. The Agency Career Service Board has decided as a matter of policy that:

a. In making the initial Career Designation, an individual shall be assigned to his present Office Career Service Board if he expresses a desire to continue under its jurisdiction and is acceptable to his Office Board; and

b. A request for change in Career Designation may be initiated by any career employee and shall be forwarded by his Career Service Board, with comment, through the Assistant Director for Personnel, to the appropriate Career Service Board for its consideration.

S-E-C-R-E-T

S-2-C-4-E-T

5. Since promulgation of the Career Service Program in June 1952, the Office of Training Career Service Board has considered its primary objective to be career planning for progressive development of all permanent members of the staff of OTR. Toward that objective, there now are being compiled, for approval of the OTR/CSB, career development programs for individual members of the OTR staff. These programs incorporate the self-analysis and aspirations of individuals and the considered judgment of supervisors and reviewing officers as reflected in the Personnel Evaluation Reports and must be so scheduled as not to conflict with operating responsibilities of OTR. I believe that our contribution toward accomplishment of the total Agency mission is a significant one, and I am certain that for most of us, OTR offers real opportunity for a progressive career in the Agency.

6. A Career Designation is principally an administrative device to assure that each career employee is under the active cognizance of one of the Office Career Service Boards. It may be changed from time to time in response to request of an individual or the needs of the service. Some of you may desire that planning your career become the responsibility of another of the organizational components on the attached list. If so, your memorandum request for change in Career Designation should be forwarded through normal channels, with comment, to the OTR/CSB, Room 1024 Eye Building. Your current Career Designation will be recorded initially as "CD-TR" unless a request for change in Career Designation has been received by not later than 15 May 1953.

SUBJECT: Returnee Debriefings

1. To enable TR(S) to utilize the knowledge and experience of personnel who return from the field, the Training Development Staff attempts to debrief as many returnees as possible. The information thus obtained is processed for the use of TR(S) personnel.

2. It often happens that TR(S) is unable to determine accurately which returnees are most valuable for debriefing from a training viewpoint, or that notification of their return does not reach TR(S) in sufficient time to allow for appropriate action, especially if the individual is due to return to the field shortly.

3. REFERENCE: CIA Notice [redacted] dated 10 April 1953

1. The referenced notice directed the Logistics Office to undertake a program of economic utilization of administrative supplies and equipment.

2. At the request of the Chief, Logistics Office, the following information is disseminated to all CIA personnel:

"It is believed that everyone in the Agency can contribute toward the proper accomplishment of the Administration's objective for greater economy and efficiency in the Government, by joint and individual practice of supply discipline as related to above subject. A program is being initiated to reduce the cost of office supplies and equipment for personnel without handicapping in any way the productive effort. The program can succeed only if all personnel are encouraged to believe in and practice the principles brought to their attention.

"Cost Consciousness" should be the uppermost thought of all employees in utilization of supplies and/or equipment.

Administrative supplies are for your use in the performance of your duties.

When drawing supplies, ask for only what you need, and use what you are issued. Do not borrow supplies.

A desk and office check to return excess supplies and equipment to supply channels, will be conducted in the near future by your Administrative Officers, in conjunction with Building Supply personnel. All employees are requested to cooperate fully with personnel assigned to this function.

The referenced regulation established a Vital Materials Program within CIA. Documents, books, papers, maps, etc., that are considered vital are to be identified and transferred to a repository for safe-keeping. To date, a negligible amount of material has been placed in the repository by the Office of Training. Immediate action must be taken to carry out OTR's responsibilities under the program. Within OTR, the program will be administered by an Area Records Officer. Pending the selection of the Area Records Officer and the completion of a study as to the best method of screening materials now in OTR files, the Vital Materials Program will be placed into effect under the Administrative Officer, OTR, insofar as it relates to materials originated or received on or after 1 August 1953.
